Friday Night, November 1st into the 2nd HALF

Friday Night, November 8th into the 9th FULL

Friday Night, November 22nd into the 23rd HALF

There is no action needed, this is just to notify the community that there will be a crew on site during the nighttime hours anytime between sunset and sunrise on the above-mentioned dates. They will have flashlights on, pointed towards the ground. The crew will be identified with yellow safety vests and will have golf carts marked with 'Pesky Varmints'. They will be quiet and discreet, so they do not disturb the neighborhood.

***This visit is for the removal of the invasive, poisonous Cane toad only. All other native toads and/or tree frogs are not part of the removal process.**
